Portfolio

PROFESSIONAL SUMMARY

Software developer with expertise in React.js, Next.js, TypeScript, Node.js and Apollo GraphQL, experienced in building internal systems for a logistics organization — covering COD management, parcel tracking, and operational workflows. Additionally proficient in SQL, Python, and Data Visualization, with hands-on experience designing Data Pipelines and automated ETL systems, as well as building Dashboards using Apache Superset for data analysis within the organization.

Holds a strong academic foundation from Bangkok University (First Class Honors), with strong collaboration skills, a sense of responsibility, and a focus on developing solutions that address both data and real-world operational needs.

Professional Experience

Amosith Logistics (Logi) Co., Ltd. || Jul 2025 to Apr 2026

Software Developer (Front-end)

- Maintained the company's website and application, ensuring functionality and a seamless user experience.
- Built a Mobile Application for field staff and internal personnel within the logistics organization.
- Designed and developed a COD management system, parcel tracking system, and cross-department coordination tools using React.js, Node.js, JavaScript, and TypeScript.
- Developed a leave management and payroll system to support HR operations across the organization.
- Delivered various features and internal modules to improve operational efficiency across multiple departments.

Tools : React.js · Next.js · Node.js · GraphQL · Apollo Client · TypeScript · JavaScript · SQL · REST APIs · Figma

Wisesight (Thailand) Co., Ltd. || Jan 2025 to Apr 2025

Data Engineer, Business Data & Analytic Team (Intern)

- Customer Segmentation Using K-Means Clustering to Support Data-Driven Business Strategy.
- Predicted client reactivation likelihood via RFM scoring, enabling data-driven comeback campaigns.
- Built rule-based tagging logic to automate client classification at scale.
- Delivered real-time Superset dashboards and Dremio datasets consumed directly by business stakeholders.
- Automated the full data extraction and transformation pipeline using Python (Pandas, Scikit-learn), cutting manual analysis time.

Tools : Python · SQL · Apache Superset · Dremio · Jupyter Notebook · Scikit-learn

EDUCATION

Bachelor of Computer Science (with First Class Honors)

Bangkok University (Thai Program), THAILAND || Aug 2021 - May 2025

AREAS OF EXPERTISE

- Frontend: React · Next.js · Vue.js · JavaScript · TypeScript · HTML · CSS · Bootstrap · Tailwind CSS · DaisyUI
- Backend: Node.js · Express.js · Golang · Apollo GraphQL · REST API
- Database & Data: SQL · phpMyAdmin · Supabase · MongoDB · PostgreSQL · Apache Superset · Jupyter Notebook · Python
- Tools & Others: Figma · Github · Postman · XAMPP · Docker · Microsoft 365 · ChatGPT · Cursor · Claude Code · Codex · Antigravity · Copilot

LANGUAGES

- LAO – Native
- THAI – Fluent
- ENGLISH – B2
